The RRAC has four 1m duraflex diving boards with sprayers for breaking the water under each board. There are two hot showers located behind the diving boards. If it is cold that day be prepared with an extra towel or parka to stay warm between dives.

This will be an 11 dive meet with a 7-5 judge panel. Dive lists will need to have five required dives, one from each category with max DD of 1.9 and 6 optional dives one from each category with one extra from any of the 6 groups. Women's and men's events will run separately. Awards will be sent out to coaches email as soon as I have confirmed that all systems used match.
